

# TusnadEcoBear *conf*

## Invitation

The ACCENT GeoEcological Organization invites you to the **TusnadEcoBearConf** conference.

A conference about **people** and **bears**, about **coexistence**.

The aim of the conference is to bring together a variety of views, competences and experiences from invited experts to offer science-based proposals as part of the future urban and national decision-making in order to improve the quality of human-bear coexistence. It will also assess the current scientific status of the brown bear population in Romania and raise awareness of the shortcomings in human-bear coexistence thus benefiting the local community. The intention is to create a tradition, to involve young people in scientific work and to provide a platform for domestic and foreign researchers to present their results.

Date and place of the conference: August 26-27, 2022, Băile Tuşnad.

Registration for the conference is done by clicking [here](#).

The event is organized as part of the **TusnadEcoBearFest** festival, so the invitation is addressed to both your family and your friends.

Thank you for registering and attending.  
Respectfully,

**László Gál**, scientific coordinator  
and the organizing team.

---

The conference is part of the project entitled "WatchBear & AdvoCity - bears and people for the common future" ([ogaccent.ro/watchbear](http://ogaccent.ro/watchbear)) implemented by the ACCENT GeoEcological Organization in partnership with Vox Iuventutis Association and Mayor's office Băile Tuşnad with the financial support of the Active Citizens Fund Romania, programme funded by Iceland, Liechtenstein and Norway through the EEA Grants 2014-2021.

Working together for a **green**, **competitive** and **inclusive** Europe.
